

Benjamin Johnston

Software Engineer · Ruby, Automation & Open Source

Columbus, OH | (614) 843-3974 | bejaunst@gmail.com | linkedin.com/in/bejaunst | github.com/cetio | cetio.github.io | U.S. Citizen

EXPERIENCE

AI Trainer, Handshake · Remote (Contract)

Nov 2025 – Jun 2026

- Built AutoHandshake!, a Ruby and JavaScript Selenium-based automation suite that eliminated 95% of manual annotation and triage effort across 400+ contractor hours through unattended execution, failure recovery, and audit trails.
- Evaluated 4,000+ multimodal head-to-head tasks against structured rubrics for response quality, reasoning accuracy, and domain understanding; earned the Model Validation 2 — Expert credential.
- Mentored contractors on platform operations, rubric interpretation, and efficient evaluation workflows.

Software Engineer (Freelance), Self-Employed · Columbus, OH

Jul 2021 – Present

- Authored and maintain 30+ public open-source libraries across Ruby, D, C#, and C, spanning SDKs, developer tooling, and systems programming.
- Built Ruby and Selenium automation tools that extract and aggregate data from authenticated web services, eliminating repetitive manual processes for clients.
- Built an AI-assisted grading platform with LMS OAuth integration and automated rubric application, reaching ~95% accuracy in real classroom use and cutting instructor grading time in half.

Search Quality Evaluator, RWS Group · Remote (Contract)

Apr 2025 – Aug 2025

- Assessed search relevance and LLM output quality against detailed rubrics across Google query simulations and third-party models, identifying failure patterns that informed ranking and UX improvements.

OPEN SOURCE PROJECTS

AutoHandshake! | Ruby, JavaScript

- Built a Ruby and JavaScript Selenium automation suite with injected monitoring hooks, multi-tab coordination, and automatic recovery from UI stalls for reliable long-running sessions across Windows, macOS, and Linux.

LinkedIn [Ruby] | Ruby

github.com/cetio/linkedin

- Built a Ruby CLI tool and pseudo-library that automates LinkedIn Learning history extraction via Selenium, with rate-limit tolerance, Chromium profile reuse, and JSON aggregation of course duration, credits, and certification status.

Selenium-SDK — Author & Maintainer | D

github.com/cetio/selenium-sdk

- Authored and maintain the de facto (#1), W3C-compliant Selenium WebDriver library for D — with an API design inspired by Ruby's Selenium bindings — published on the DUB package registry.

Chemica | D, GTK4

github.com/cetio/chemica

- Built a cross-platform desktop app for exploring chemical compounds with interactive 3D molecular visualization, unifying several scientific databases behind one interface with a local AI layer that merges overlapping entries.

TECHNICAL SKILLS

Languages: Ruby, C#, D, C, Python, JavaScript, SQL, C++, x86 Assembly

Tools & Frameworks: Selenium / WebDriver, GTK4, Node.js, Git, CMake, CI/CD, Linux

Concepts: Browser automation, REST APIs, OAuth 2.0, SDK design, web scraping, LLM integration & evaluation, performance optimization

Practices: Agile, Kanban, Test-Driven Development, Code Review, Open Source Contribution

EDUCATION & CERTIFICATIONS

Columbus State Community College — AAS, Software Development

Expected Dec 2026

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, SQL & Databases, Artificial Intelligence, Virtualization, Agile & Kanban

Certifications: Handshake Model Validation 2 — Expert; GitHub Foundations (PMI); Microsoft Career Essentials (Generative AI, Software Development, Azure AI, Security); SQL Programming
