

Benjamin Johnston

Systems Engineer — Workflow Automation, QA & Evaluation, Developer Tooling

Columbus, Ohio, USA bejaunst@gmail.com github.com/cetio linkedin.com/in/bejaunst cetio.github.io

PROFESSIONAL SUMMARY

Systems Engineer specializing in workflow automation, search-quality evaluation, and developer tooling. Eliminated 95% of manual contractor effort via a Selenium-based RPA suite proven across 400+ hours. Evaluated multimodal AI systems and search relevance at scale for Handshake and RWS Group. Builds strongly typed SDKs and developer tools across D, C#, C, and Ruby — from raw syscalls and JIT assembly to browser automation and LLM integration. Seven published technical articles on browser automation, SIMD retrieval, and systems internals.

PROFESSIONAL EXPERIENCE

AI Trainer (Contract) — Handshake

November 2025 — July 2026

- Evaluated multimodal AI agents against structured rubrics for response quality, reasoning accuracy, and domain understanding.
- Built AutoHandshake!, a cross-platform Selenium RPA suite (Ruby/JavaScript) with failure recovery and full audit trails that eliminated 95% of manual annotation and triage effort across 400+ contractor hours on Windows, macOS, and Linux.
- Mentored contractors on platform operations, rubric interpretation, and efficient evaluation workflows. Earned Model Validation 2 — Expert credential.

Search Quality Evaluator (Contract) — RWS Group

April 2025 — August 2025

- Assessed search relevance and LLM output quality against detailed rubrics across Google query simulations and third-party models, identifying failure patterns that informed ranking and UX improvements.

Freelance Software Engineer

July 2021 — Present

- Developed workflow automation tools and SDKs for web API integration and device I/O, eliminating repetitive manual processes for clients.
- Built an AI-assisted grading platform with LMS OAuth integration and automated rubric application, achieving ~95% accuracy and cutting instructor grading time by half.

SELECTED PROJECTS

AutoHandshake! ★

Ruby, JS — 2026

Selenium RPA suite with multi-tab coordination, UI stall recovery, and full audit trails. 95% effort reduction across 400+ contractor hours.

Selenium-SDK ★

D — 2026

W3C WebDriver-compliant browser automation library for D, overhauled from a 2018 JsonWire codebase. github.com/cetio/selenium-sdk

Insurgent ★

D, JS — 2026

Full-stack RTS game companion with Selenium Chrome integration, WebSocket data feeds, and real-time match tracking dashboards.

Intuit ★

D — 2026

Strongly typed D library for LLM and embedding endpoints with streaming, batch embeddings, tool usage, and per-model config. github.com/cetio/intuit

Google-SDK ★

D — 2026

Google Drive integration with OAuth, full file-system operations, MIME detection, and lightweight export. github.com/cetio/google-sdk

Conductor ★

D — 2026

HTTP, OAuth, and network orchestration utilities with typed request building, auto token refresh, retry, and circuit breaking. github.com/cetio/conductor

Tern ★

D — 2025

High-performance D stdlib extension with compile-time vectorized algorithms, smart pointers, custom allocators, and SIMD batch processing. github.com/cetio/tern

TECHNICAL SKILLS

- Languages: C#, D, C, x86 (fluent); C++, Ruby, JS, Bash, VB.Net (intermediate); Python, z80 (novice)
- Automation: Selenium, RPA, Browser Automation, WebSocket, Nokogiri
- QA & Evaluation: Search Quality Evaluation, Model Validation, Benchmark Design, Rubric-Based Assessment
- API & SDKs: OAuth, REST, JSON, HTTP, SDK Engineering, CI/CD
- Systems & Perf: SIMD/AVX, JIT Compilation, Metaprogramming, Data Processing, SQL
- Graphics & UI: GTK4, Cairo, 3D Visualization
- AI & ML: LLM Integration, Embeddings, Streaming
- Interop: D/C# Bridge, CLR Internals, Reverse Engineering
- Platforms: Windows, Linux (Fedora/Arch), Embedded Linux
- Dev & Analysis: Git, GDB, CMake, IDA Pro, Ghidra, Intel VTune, AMD uPerf

EDUCATION

Columbus State Community College
AAS — Software Development
Expected Graduation: December 2026

CERTIFICATIONS

Handshake: Model Validation 2 — Expert

NASBA: MS Azure AI Essentials; MS Career Essentials
Software Development; MS Career Essentials Generative
AI; SQL Programming; SQL Essential Training; MS Security
Essentials

PMI: Career Essentials in GitHub; Cybersecurity Awareness
